A. Review, Discuss – Tracking Log Notification of New Complaints

Inquiry No. 15-06 Thomas Lodi MD(H) - Use of professional designation

Mrs. Springer presented a background of the complaint filed against Dr. Lodi. She noted that it had been alleged that he was advertising that he was an M.D., rather than an M.D.(H). She stated that he may not use the M.D. designation in Arizona since he is not licensed as a medical doctor (M.D.) by the Arizona Medical Board.

Mrs. Springer also commented that she had, in her report, noted a previous complaint filed against Dr. Lodi. She indicated that this information should not have been made a part of this investigation file. A.A.G. Baskin commented that the board members may only consider the information in the current complaint.

Board members declared that they believed they could be fair and impartial in light of Mrs. Springer's disclosure of a previous complaint matter and that they would consider the facts of the present case. The discussion began with Mrs. Gillette expressing concern that Dr. Lodi did not appear to have control of the types of advertising promoting his clinic and that he was non-compliant with the rules and laws regarding use of the professional designation in Arizona.

Mr. Kennedy commented that he felt Dr. Lodi would be more aware of his advertising if the Board were to require a quarterly report listing each advertisement he had promoted.

Dr. Shelton suggested a non-disciplinary letter of concern in the instant matter and requested that the executive director advise Dr. Lodi of the Board's concerns regarding the use of the M.D. in his advertising.

Dr. Warner made a motion to issue a non-disciplinary letter of concern. Dr. Adler seconded the motion. There was further discussion.

Dr. Schwengel expressed concerns about Dr. Lodi's past use of the M.D. designation in his advertising within Arizona. AAG Baskin reminded board members that they may only consider the information before them. Mrs. Gillette called the question.

Motion passed 4 – 2

September 8, 2015 Regular Meeting

Inquiry No. 15-04 Pieter De Wet, MD(H)
Board Members Kennedy and Shelton disclosed that they would recuse themselves from the discussion in this case. Dr. Shelton stated that he knows Dr. De Wet and owns Zyro Corporation stock and Mr. Kennedy stated that he owns stock in Zyro Corporation as well. Dr. Schwengel chaired this portion of the meeting.

Mrs. Springer explained that Dr. De Wet holds a medical license in Texas and that they had issued a Reprimand to him regarding false advertising. She stated that Dr. De Wet had written a response to the board's notice and indicated the complaint was brought to the attention of the Texas Medical Board by Stephen Barrett, a "consumer advocate". Mr. Barrett alleged "false advertising regarding Dr. De Wet's use of CAM modalities, specifically the Zyro, Asyra, and an LED (laser energetic detoxification). Additionally he offered ozone therapy at his clinic. In his written response to the Homeopathic Board, Dr. De Wet informed the board that he had immediately removed the advertising in question from his Texas website in accordance with the directions from the Texas Medical Board.

Mrs. Springer noted Dr. De Wet had complied with all of the agreed to conditions in his order with the Texas board. She indicated that the Arizona Homeopathic Board must conduct a review under ,A.R.S. §32-2933(18) which governs the professional conduct of licensees.

Dr. Warner commented that the advertising implied a promise and that it could have been more qualified regarding the nature of the expected outcome of the therapy. She suggested a non disciplinary letter of concern relating to a potential violation of A.R.S. § 32-2933(18).

Dr. Adler noted that Dr. De Wet had complied with all of the requirements contained within the Texas Medical Board order. He would have been able to practice all of the therapies within Arizona using his homeopathic physician license. He stated he did not believe Dr. De Wet had violated any Arizona Homeopathic Medical statutes. Mrs. Gillette commented that Texas had expressed a concern that his advertising indicated that the Zyro did something it really could not do and that it was potentially misleading to the public.

Board members discussed their options. Mrs. Gillette made a motion to dismiss the matter noting that Dr. De Wet had complied with all of the Texas Medical Board requirements and that within Arizona he would have been able to utilize the therapies under the homeopathic medical board license. Dr. Adler seconded the motion.
