      i. **Inquiry No. 16-01 Devin Mikles MD, MD(H) Referral Arizona Medical Board**

      Dr. Schwengel began the discussion by clarifying that this is a new inquiry and that the Board must first determine jurisdiction pursuant to A.R.S. § 32-2907 since Dr. Mikles also holds an Arizona medical license.

      Mrs. Springer provided a short synopsis of the matter that had been brought to the Board's attention by Dr. Mikles. She explained that he had been notified by the Arizona Medical Board of a complaint they had received from an audiologist in Ohio state regarding a direct mail advertisement for a product named Reconnect. The Ohio Medical Board raised a concern that Dr. Mikles does not have an Ohio medical license or Ohio telemedicine license to practice alternative medicine in that state.

      Mr. Kennedy commented that he believed the Homeopathic Board should have primary jurisdiction based on the type of product that Dr. Mikles serves as a consultant for and that once jurisdiction is determined there are a number of questions that should be clarified.

      Dr. Schwengel and AAG Kahn reiterated the need to determine jurisdiction prior to initiating an investigation.

Based on the type of treatment Dr. Grout provided to A.A. the Homeopathic Board may also wish to assert jurisdiction and if that occurs then both boards will go to arbitration at the Arizona Supreme Court.

      **MOTION:** Mr. Kennedy made a motion stating that the Board should assert jurisdiction and that Dr. Schwengel be assigned to represent the Board.
      **SECOND:** Mrs. Gillette
DISCUSSION: Dr. Adler commented that Dr. Grout’s care of the patient, A.A. involved homeopathic as well as allopathic medicine. AAG Kahn commented that the Board may consider whether to stipulate dual jurisdiction with the Medical Board. If this were to occur then both boards would conduct their own investigation. Dr. Schwengel stated that there is often a great deal of overlap on the practice methods of homeopaths, specifically the use of pharmacy and antibiotics.
